MS 120

Is a one-component, solvent-free, neutral-cure Silane based sealant which does not emit unpleasant odors, available in the form of a thixotropic paste. It is easy to apply on vertical and horizontal surfaces and cures at room temperature through the humidity present in the air to form a flexible sealant. Seals are extremely stable over time, even when exposed to different weather condition, industrial environments, and temperature changes. The product remains flexible between -40°C and +150°C.
